

I'll give you a quiz.

We will announce the answer to the quiz.

This is a machine that mixes flour and karinto ingredients such as sugar and kneads them to make karinto dough.

The dough made with this machine is then fried in oil twice and becomes karinto.

This machine was created in 1971 AD.

Currently, karinto is made by machine through the following processes.

ミキサー

醗酵室

圧延・カット

二次乾燥

袋詰め作業

包装ライン

We wish to continue international exchange with you.

We look forward to resuming video calls with you.

Please take good care of yourself as the new coronavirus infection has not yet converged.

We hope that your school will continue to be a wonderful school.

See you again.

再見！

感謝、多謝、謝謝！！
